- Turn oven on to 400 degrees. Let preheat, at least 10 minutes
- Set butter on counter to soften
- Ingredient(s) used more than once: garlic salt
- Upon delivery, remove potatoes from meal bag and store at room temperature
- Refer to minimum internal temperature chart on front of card for your protein

Instructions

1. Roast Garlic and Prepare Ingredients

Halve garlic. Place garlic halves and 1 tsp. olive oil on a piece of foil and form a foil pouch around garlic. Place garlic pouch directly on oven rack, opening-side up.

Roast in hot oven until garlic is tender, 15-20 minutes.

While garlic roasts, peel and cut potatoes into large evenly-sized chunks.

Evenly spread panko on a plate.

Pat steaks dry. Cover steaks with plastic wrap and use a heavy object to pound to an even 1/2" thickness. Gallon bags make clean up easier and are made of thicker plastic. If you don’t have a disposable bag, use plastic wrap.

Season both sides with half the garlic salt (reserve remaining for potatoes) and a pinch of pepper. Top both sides evenly with mayonnaise. Transfer steaks to plate with panko and flip until coated on both sides, pressing gently to adhere.

Carefully remove garlic from oven.

2. Make the Mashed Potatoes

Bring a medium pot with potato chunks covered by water to a boil.

Once boiling, cook until fork-tender, 14-18 minutes.

Remove from burner. Reserve 1/4 cup potato cooking water. Drain potatoes in a colander/strainer and return to pot.

Add roasted garlic, a pinch of salt, remaining garlic salt, and creme friache. Mash until smooth.

If too thick, add additional reserved potato cooking water, 1 Tbsp. at a time, until desired consistency is reached.

While potatoes cook, continue recipe.

3. Cook the Steaks

Line another plate with a paper towel.

Place a large non-stick pan over medium-high heat and add 1/4 cup olive oil.

Lay steaks away from you in hot oil and flip every 1-2 minutes until golden-brown and steaks reach desired doneness, or 3-5 minutes per side for medium/medium-well.

Transfer steaks to towel-lined plate. Rest, 3 minutes.

Wipe pan clean and reduce heat to medium. Pan will be hot! Use caution.

4. Make the Sauce

Add demi-glace and 2 Tbsp. water to hot, dry pan used to cook steaks. Stir to combine and bring to a simmer.

Once simmering, remove from burner.

While sauce comes to a simmer, continue recipe.

5. Heat Corn and Finish Dish

In a microwave-safe bowl, combine corn, 1 tsp. olive oil, and a pinch of salt. Cover with a damp paper towel.

Microwave covered until heated through, 2-3 minutes.

Carefully remove from microwave and uncover. Stir in softened butter until melted and combined.

Plate dish as pictured on front of card, topping steak with sauce. Slice steak, if desired. Bon appétit!
